CERTIFICATIONS

MANUFACTURING PROCESS

Qualified Brass Material

Using high-class brass material to ensure the health of water using from source.

Water Saving Design

Using air injection technique to make water flow be plentiful and lively, improve utilization of water.

Advanced Surface Finishing

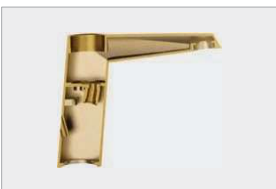

After accurate milling, and full automatic polishing, the cast surface will be with clear outline to show the product design well.

Fast Installation Structure

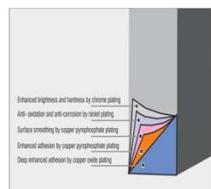

Using long barrel and large nut as installation components of faucets, make it convenient and fast to install the faucets firmly without any tools.

Low Pressure Casting

Adopting the advanced low pressure casting technology can avoid the possibility of air and impurity entrance. The casting will be with high density and fewer defects, which can ensure the durability of products.

Copper Chrome Plating

Double nanoscale plating finish with high hardness, good corrosion resistance and excellent abrasion resistance, is bright as mirror and enduring as time goes by.

Heavy Quality Valve

Superior ceramic cartridge with natural alumina ceramic chip, which attains Mohs rigidity level 9, just less than that of diamond (level 10) and with the advantage of high pressure temperature resistance, good abrasion resistance, stable chemical property, excellent anti-leakage capability and smooth switch. The life cycle of our cartridges is up to 500,000 cycles.

CNC Machining

The faucets are machined by CNC machine, with accurate and stable dimension, to ensure the stability of assembly and avoid the product leaking.

UNIQUE SELLING POINT(USP)

Welcome to the world of **NEW FLOW** bath fittings. A world where you will discover the joy of bathing in sheer luxury. A world where your dream of having world class bath CP fittings will melt into reality. Over the years, we have evolved as a company that believes in innovation, workmanship and customer satisfaction. Our quest for perfect bath fittings is eminently reflected in the reputation that we enjoy in the market.
